We're Making Improvements

Within the next few days Citizens Gas' Contractors will be working on the gas lines in your neighborhood. There will be no charge to you for the work we do.

A member of Citizens Energy Group

To minimize your inconvenience we will:

- Restore all excavations to as near original condition as possible.
- Contact you in advance if we must interrupt your service.
- Barricade any excavations we must leave overnight.
- Communicate with you as necessary to work around your schedule.
- Move your meter to the outside of your home or business, if it is currently inside.

You can help us if you would please:

- Communicate with us so we can coordinate our work around your schedule.
- Keep children away from work activities and from barricaded excavations.
- Keep the grass seed that we sow damp until it germinates and the new grass has made a good start.

If you have any questions or concerns, please contact the crew foreman on the job or the undersigned Citizens Gas Employee. We appreciate your cooperation!

*we need to Replace your
old Gas service week of
August 25-29*

We Need your Help

In order to bring you better gas service, we are asking your co-operation during the period when service crews are working in the street in your immediate neighborhood.

Every effort will be made to keep inconvenience to you at a minimum but it will be necessary to make arrangements to gain admittance to your premises to turn off gas, replace or relocate gas meter, restore service, and relight your appliances on.

Service will be restored each night during the period the work is in progress.

Will you please contact the Construction Field Coordinator on the job

or call - 924-3311

when it is necessary for you to be away from your home?

Thank You!

Construction Field Coordinator
